75 W 5th Street
222 Landmark Center
St. Paul, MN 55102
American Woodturner Magazine
Many. Many wood turning articles and information about wood turning
Must be an AAW member to access some of the information

Symposiums

Symposiums are a great way to see many vendors displaying their equipment and supplies on one place. At the same time there will many workshop learning sessions. This is a chance for you to see different wood turners demonstrating their specialties. These last from 60 to 90 minutes and are for observation only not, “hands on”. I have listed the ones I have attended in the past. There are many different symposiums around the country. There is more information about them on the AAW web site.
